- 78. livestock Animals raises for food or other products, or kept for use, especially farm animals such as meat and dairy cattle.

SCIENCE AND GEOGRAPHY

- 1. force A physical influence that tends to change the position of an object with mass, equal to the rate of change in momentum of the object.
- 2. friction The resistance encountered by an object moving relative to another object with which it is in contact.
- 3. work The transfer of energy, measured as the product of the force applied to a body and the distance moved by that body in the direction of the force.
- 4. machine A device with moving parts, often powered by electricity, used to perform a task, especially one that would otherwise be done by hand.
- 5. simple machine A machine that works with only one movement. Any one of the six devices formerly considered to be the elemnts from which all machines were composed. They were the inclined plane, lever, pulley, screw, wedge, and wheel and axle.
- 6. lever A rigid bar that pivots about a point (fulcrum) and is used to move or lift a load at one end by applying force to the other end.
- 7. fulcrum The point or support about which a lever turns.
- 8. load The work required of or placed on an engine or machine.

9.	wheel and axle	A simple machine, often used to raise or lower loads, typically consisting of a cyllindrical drum and wheel mounted on the same axle with ropes wound around each.
10.	pulley	A mounted rotating wheel with a grooved rim over which a belt or chain can move to change the direction of a pulling force.
11.	inclined plane	A slope that makes it easier to lift objects.
12.	screw	A simple machine made up of an inclined plane wound around a post.
13.	wedge	A solid block that is thick at one end and thin at the other, used to secure or separate two objects.
14.	rope	A strong cord made by twisting together strands of hemp or other fibers or wire.
15.	litter	Pieces of trash that have been carelessly left on the ground, especially in a public place or the outdoors.
16.	smooth	Not having a rough or uneven surface.
17.	raise	To cause somebody or something to move upward or to a higher level or position.
18.	grocery	Goods, especially food, sold in a grocery store.
19.	hammer	A hand tool consisting of a shaft with a metal head at right angles to it, used mainly for driving in nails and beating metal.
20.	nail	A strong metal pin with a flat round head and a pointed end that is hammered into wood.
21.	seesaw	A playground toy in which two people sit at either end of a bar balanced in the middle and take turns riding up into the air.
22.	increase	To make something become larger in number, quantity, or degree.
23.	handle	A part of a thing by which it is held, moved, or operated.
24.	sidewalk	A paved path for pedestrians alongside a street.
25.	flagpole	A pole on which a flag is flown.
26.	slope	Ground that inclines slightly.
27.	bolt	A sliding bar that fits into a socket and secures a door or gate.
